

WNT Beta Catenin signaling
KRAS signaling down
Estrogen response early
UV response down
Apical surface
Mitotic spindle
Xenobiotic metabolism
DNA repair
MYC targets V2
Cholesterol homeostasis
Oxidative phosphorylation
Protein secretion
E2F targets
Peroxisome
PI3K AKT MTOR signaling
G2M checkpoint
UV response up
MYC targets V1
Unfolded protein response
Glycolysis
MTORC1 signaling
